

NOV 18 1958

#2567

25X1A9a

MEMORANDUM FOR:

ATTENTION:

25X1X7

SUBJECT:

Gdańsk (Danzig) Town Plan

25X1A2a

REFERENCE:

(22 September 1958)

25X1X7

1. The plan of Gdańsk, Poland, compiled and drawn in March 1955 for the port study, is considered the best available map to use as a base for our town plan of Gdańsk. The Cartography Division tells us that they would like to use the brown plate as an original plate for our new map and would like to have a film positive or other reprographable copy of the brown plate at full scale. It is requested that a copy of the brown plate of subject plan and permission for its use by this office be obtained from the responsible offices.

2. [redacted] port section, is the originator of the port study. It would be appreciated if this section were consulted in reference to any changes that may have occurred since the publication of the plan, and that the changes be sketched on a copy of the plan. It is understood that the sharp curve of the Wisła River north of the fortress at Nowy Port is being realigned, and that new fishing boat basins have been constructed in the Rudniki section of Gdańsk. Is Portoway Channel another name for Polish Portoway Kanal?

3. It is felt that this request is within the framework of the general agreement for the exchange of information between the two organizations. It is also our hope that we will be able to reciprocate whenever information is requested from us by JIB.
